

European Journal of

# Psychological Assessment

2019

The *EJPA* is the official organ of the European Association of Psychological Assessment (EAPA).

The main purpose of the *EJPA* is to present important articles, which provide seminal information on both theoretical and applied developments in this field. Articles reporting the construction of new measures or an advancement of an existing measure are given priority. The journal is directed to practitioners as well as to academicians: The conviction of its editors is that the discipline of psychological assessment should, necessarily and firmly, be attached to the roots of psychological science, while going deeply into all the consequences of its applied, practice-oriented development.

Psychological assessment is experiencing a period of renewal and expansion, attracting more and more attention from both academic and applied psychology, as well as from

political, corporate, and social organizations. The *EJPA* provides a meeting point for this movement, contributing to the scientific development of psychological assessment and to communication between professionals and researchers in Europe and worldwide.

The journal presents clearly written original papers, reviews, and case studies in all domains of psychological assessment.

**Impact Factor of 1.985 for 2017!**

## Schedule
